

Super Simple Strawberry Cookies

www.afewshortcuts.com

- 1 box Strawberry Cake Mix
- 1/3 cup oil
- 1/4 cup milk
- 1 egg
- 1/4 pureed Strawberries
- powdered sugar
- chopped pecans (optional)

Preheat oven to 375 degrees

Mix all ingredients except Powdered Sugar.

You can mix by hand, or with mixer.

Mix just until everything is well incorporated.

Scoop into 1 inch dough balls onto parchment lined cookie sheet.
You could use a well-greased cookie sheet, but I prefer parchment paper.

Bake at 375 for 10 minutes or until the edges turn golden brown.

Allow to cool on pan for about 2 minutes then move to cooling rack.

While on cooling rack sprinkle with Powdered Sugar.

Serve.

Makes about 2 dozen cookies

Tips:

- *For strawberry puree, defrost a handful of frozen strawberries in microwave and puree in blender or food processor. You can also use fresh.*
- *I didn't use pecans in the batch I made, but you could use about 1/2 cup chopped pecans. Mix in batter. They are super this way too!*
- *These freeze really well! Make a couple batches and stick 1 in a gallon freezer ziploc for a rainy day!*
