

FROM THE DESK OF DR NORTH STAR

Notes:

The patient came in with sniffles and a cough. After tests, we have determined this patient has the cocoa cold from lack of cookies. It is not contagious.

Patient must rest for three days. NO flying to the North Pole. NO moving around. I am prescribing 1 cookie per day to help the patient get better faster.

After 3 days this elf may resume normal activities.

Dr North Star M.D.

Official Dr of the North Pole
